

# Sanitary Precautions

## Holiday Camps 2021-22

Dear parents,

Thank you for trusting us to look after your child(ren) this summer. We have been working closely with all of our venues and the DSC to ensure that we are complying with all safety guidance and providing the safest experience possible.

Outlined below is an overview of what we are doing to reduce the opportunities for the spread of infection.

### Screening

- Record keeping for track and trace
- Observing for symptoms - High Temperature, Fever, Runny Nose, Fatigue, Dry Cough, Chest Pains, Sore Throat and loss of Taste and Smell

### Distancing

- Limited group sizes
- 2m social distancing observed
- Staggered drop off and collections times
- Face masks, face shields and gloves as appropriate
- Groups never share a space

### Cleaning

- Hand sanitizer and hand wash stations readily available
- Regular hand hygiene enforced
- Bathrooms sanitized hourly

---

Because persons with COVID 19 can be contagious before showing any symptoms, and because some people never show any symptoms, it is important to remain vigilant and maintain all of the measures in place even if there does not appear to be any immediate threat.
